The status for your app, Make Your Own Charts (967962849), is now Ready for Sale.

Message 1 of 1807

From iTunes Store  
To rmetcalfe@rjmprogramming.com.au  
Date Today 02:07

Dear Robert Metcalfe1981723993,  
The following app has been approved and the app status has changed to Ready for Sale:

App Name: Make Your Own Charts

App Version Number: 1.3  
App Type: iOS  
App SKU: Interactive\_Google\_Charts  
App Apple ID:967962849

If your contracts are not in effect at this time, your app status will be Pending Contract. You may track the progress of your contracts in the [Agreements, Tax, and Banking](#) module in iTunes Connect.

To make changes to this app, sign in to iTunes Connect and open the [Manage Your Applications](#) module.

It can take up to 24 hours before your app is available on the App Store. This delay is dependent on any app availability issues.

Before you market your app, read the [App Store Marketing and Advertising Guidelines](#) for Developers. The guidelines include information on using the App Store badge, best practices to market apps on the App Store, and details on the use of Apple product images.

If you have any questions regarding your app, use the [Contact Us](#) module on iTunes Connect.

Regards,

Description

The Make Your Own Charts application, designed for iPad usage only, adds a user interaction component utilizing functionality created by Google and known as the Google Charts product. This application allows a user to tailor their own chart using their own data and optionally share with others an email of that experience.
