Don't list everything; keep it relevant and include data that shows the impact you made. Remember, you don't have to work with numbers to quantify your results. Think about the size of the team you led, the number of projects you balanced, or the number of articles you wrote.

The Red Panda Presentation

What is a red panda?

Audrey Dawson

7th Grade Environmental Studies

3rd period, Ms. Ewing

Say the word “panda,” and most people immediately think of something black and white and bear-like. That’s the giant panda, but it’s just one kind of panda. Another kind of panda, one you’ve probably never heard of, is the red panda. It has reddish brown fur and looks like a cross between a fox and a raccoon. Red pandas are amazingly cute, with curious little faces and very soft fur. They also face a lot of threats from people, but conservation groups are trying to help. By the end of this presentation, you will agree that red pandas are the best animal you’ve never heard of.

A low-angle, upward-looking shot of several modern glass skyscrapers reaching towards a bright blue sky with scattered white clouds. The sun is visible near the top center, creating a lens flare effect. The buildings' glass facades reflect the sky and each other, creating a complex geometric pattern.

Introduction

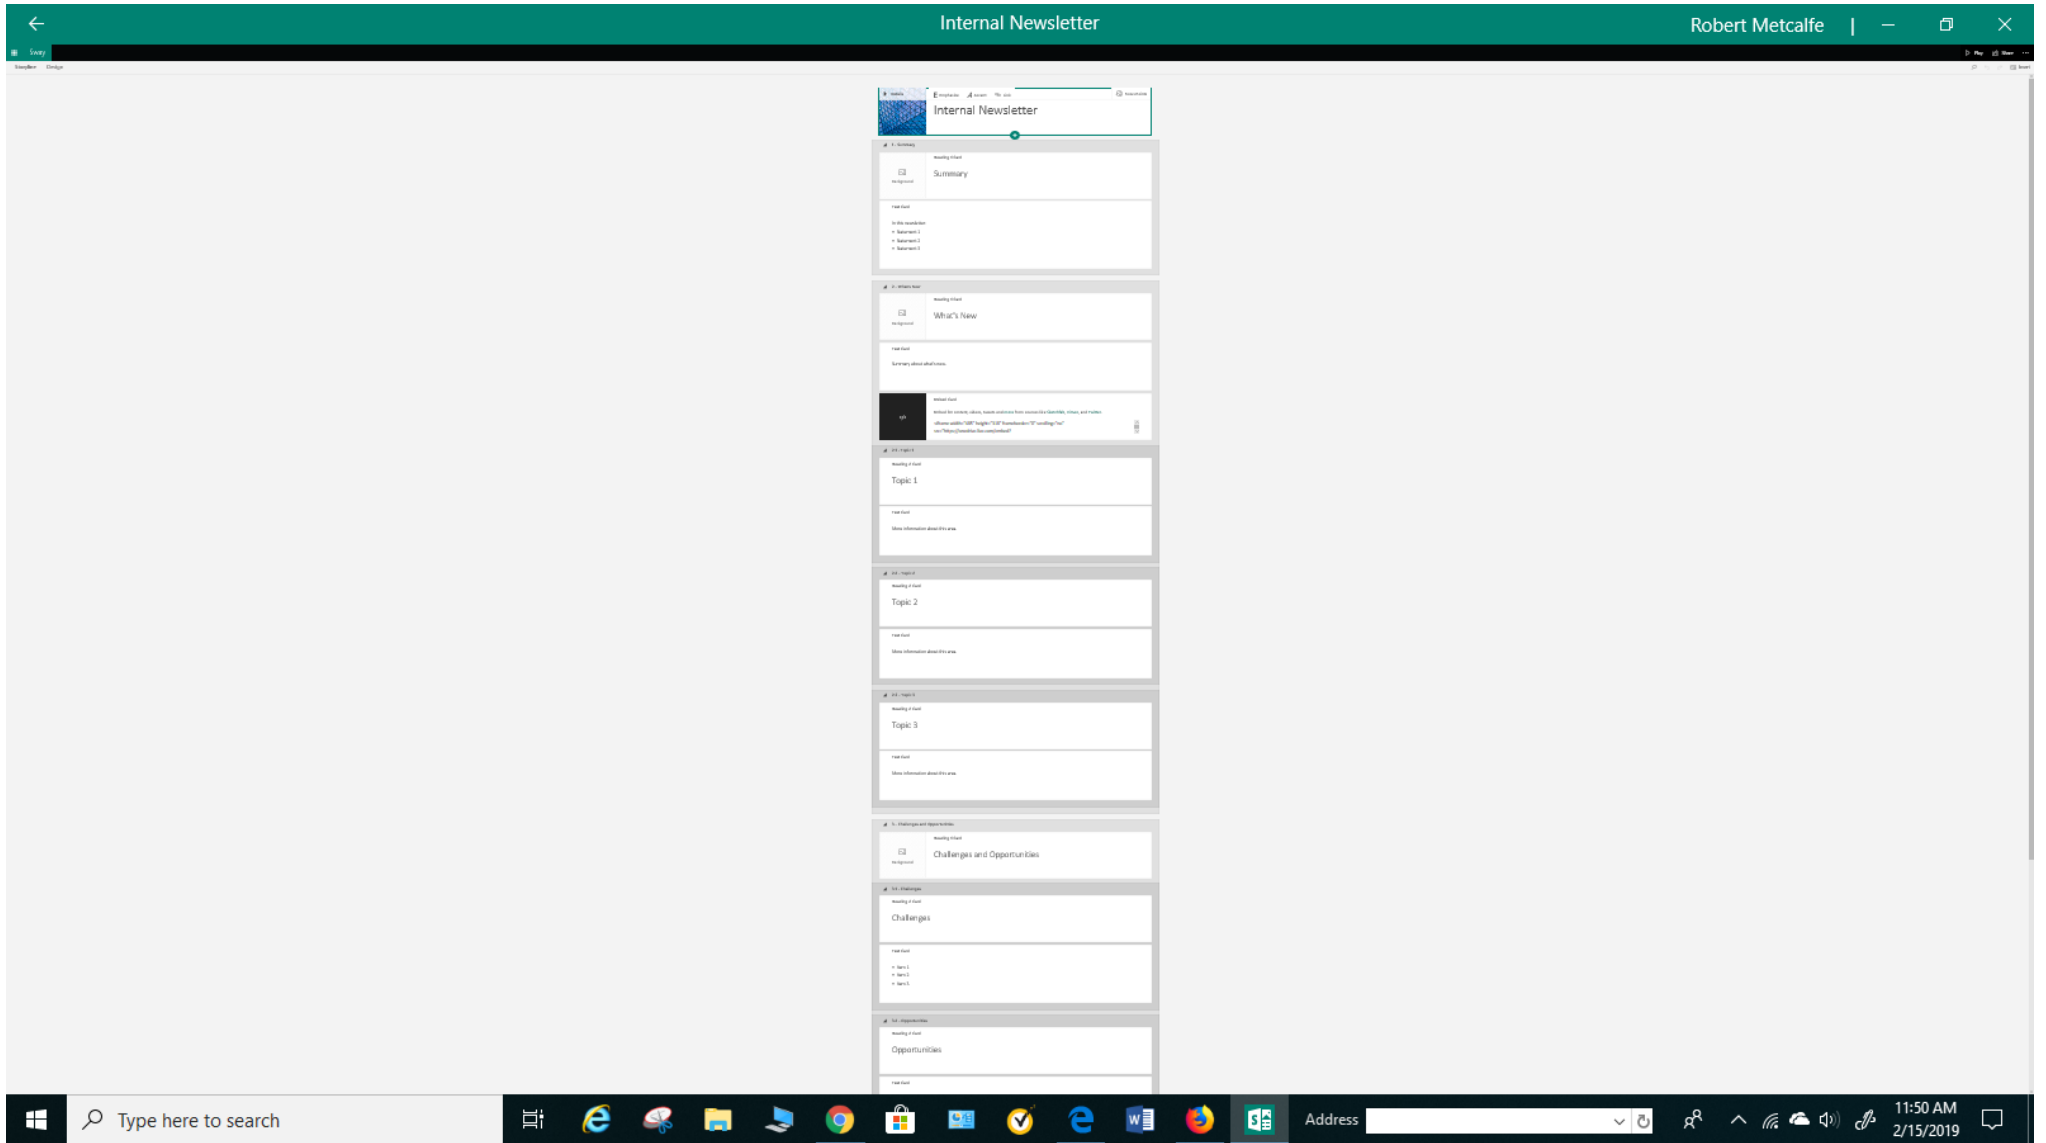

Introduce your trip! Where did you travel? What did you do? When were you there?

To include a map of your travels, you can begin by inserting an embed card.

The rest of this Sway shows how you can use text, images, and other multimedia to tell your story.

Start editing this Sway

Text in Sway works like regular text, but with a twist. As you type, Sway's built-in design engine works to combine your text with other multimedia content and deliver great results
