Adjust the volume of Microphone (Realtek High Definition Audio)

Read the following sentences aloud in a natural speaking voice:

"Peter dictates to his computer. He prefers it to typing, and particularly prefers it to pen and paper."

Note: After reading this, you can proceed to the next page.

Windows 10

Windows Speech Recognition lets you control your PC by voice alone, without needing a keyboard or mouse. The following tables list commands that you can use with Speech Recognition.

If a word or phrase is bolded, it's an example. Replace it with similar words to get the result you want.

For info on how to set up Speech Recognition for the first time, see Use speech recognition.

Notes

Any time you need to find out what commands to use, say "what can I say?"

Speech Recognition is available only for the following languages: English (United States, United Kingdom, Canada, India, and Australia), French, German, Japanese, Mandarin (Chinese Simplified and Chinese Traditional), and Spanish.

Common Speech Recognition commands

To do this	Say this
Open Start	Start
Open Cortana	
<p>Note</p> <p>Cortana is available only in certain countries/regions, and some Cortana features might not be available everywhere. If Cortana isn't available or is turned off, you can still use search.</p>	Press Windows C
