What's my mesh speed?

Kitchen – 111 Mbps

Living room – 122 Mbps

This is the speed of the connection between your primary and mesh Wifi points.

Mesh speed can vary depending on a few things: distance from the primary Wifi point and physical barriers like walls in your home or other interference.

Home control

Anyone on your Wi-Fi can visit On.Here to discover and interact with controllable devices.

[VIEW ON.HERE](#)

Controllable devices

No controllable devices.

Give your Wi-Fi a name

Your Guest Wi-Fi will need a name and password. No need to write this down though – you can share it with guests from the app at any time.

Family Wi-Fi

Say goodbye to online distractions. Schedule a regular Wi-Fi pause on your children's devices such as at bedtime, pause Wi-Fi in the moment, and block adult sites on any devices you want.
